

Minutes for EMERGENCY SELECTBOARD MEETING April 16, 1014

PRESENT: Dick Charland, Mo Lavanway, Maureen Harvey, Adam Magee

Dick called the meeting to order at 8:30 a.m.

Review of road damage had multiple locations where there were washouts and where culverts have collapsed creating holes in the roads. The immediate need is to stabilize the remaining roadway providing at least one lane of access on the road and replacing the culverts to eliminate the holes in the roads. The large Wilder Road culvert that was swept away in the current has closed that road. A replacement plan will be created and the residents will have access through the campground in the interim.

Maureen made the motion to rent a wheeled excavator for a month from CRW at a cost of \$5,000, Mo seconded, all in favor.

Maureen made the motion to purchase 38 sections of 18 inch culvert and 33 sections of 24 inch culvert at a cost of approximately \$25,000, Mo seconded, all in favor.

Motion made by Maureen to adjourn at 8:36, Dick seconded, all in favor.
